Hydrauproser is the world's globally leading and dynamic supplier (www.completehydraulicsolutions.com) Hydraulic System and Components for Metallurgical Plants and Rolling Mills (Steel, Aluminium and Non Ferrous Metals).

A Complete Hydraulic Solutions is offered hydraulic systems (including integrated hydraulic power unit, valve stands, accumulator stands, high quality and robust cylinders) designed, manufactured and tested equipments by Hydrauproser for Steel and Aluminium industries EAF furnaces, LF stations, Induction Melting Furnace and secondary metallurgical facilities, Continius Casting Lines and Rolling Mills.

Hydrauproser giving the globally service and support the hydraulic systems area piping, pickling, flushing, erection and supervising for the in site applications all steel and aluminium process.

Highly qualified engineers and specialists design, build and start-up tailor-made plants with all the required hydraulic integrated systems.

The main Hydraulic system equipment and components are manufactured in our facilities and all steelmaking and foundry facilities stand out due to top quality hydraulic materials and workmanship.

Steel Cu Al Zn Si Fe Mg Sn

HYDRAULIC FOR

INDUSTRIAL FURNACE

- Melting
- Holding
- Pouring
- Reheating

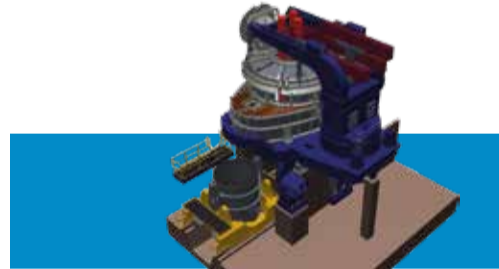

CONTINUOUS LINE PLANTS

- Rolling Mills (Bar Mill, Section Mill, Plate Mill, Sheet)
- Extrusion Work (Profile and Tube)
- Casting Lines (Billet, Slab)
- Forging Plants

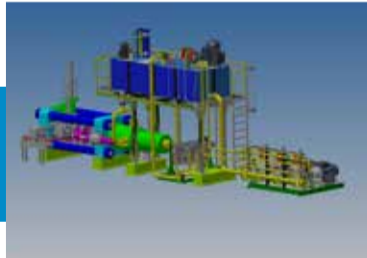

ANNEALING PASSIVATION COATING FINISHING

STEEL MAKING PROCESS

- Meltshop
Hydraulic Systems and Equipments**
- EAF Electrical Arc Furnace
 - LF Ladle Treatment Station
 - SM Secondary Metallurgical
 - VOD Vacuum Oxygen Degassing

PLANT REWAMPINGS AND NEW INSTALLATIONS

- Meltshop Rewampings
- Continuous Casting Rewampings
- Rolling Mill Rewampings
- Reheating Furnace Rewampings

PIPING & PICKLING & FLUSHING SERVICE

- Management of Piping in Site**
- Hydraulic Piping
 - Gress Piping
 - Oil Lubrication Lines
 - Chemical Cleaning in Site
 - Flushing Operations
 - Pollution Analysis
 - Re-assembly of Circuit
 - Supervising
 - Start-up All Hydraulic Systems
